GEOTHERMAL HEAT PUMPS

<http://www.hydronmodule.com/>

Heating/Cooling: Water to Water, Water to Air,

Split Systems 1.5 -12 tons

Combined Water to Water and Water to Air in one unit. Largest selection of Residential choices • Complete R410A Product Line • Stainless Steel Cabinet Construction-bolted, not screwed • Coated Air Coils For Extended Life • Variable Speed ECM Blower Motors • Fault Retry To Eliminate Nuisance Service Calls • High Efficiency Copeland Scroll Compressors • 10/10/10/10 Year Residential Warranty(best in industry) • Available Options: Hot Water Generator (Desuperheater) • Field installed internal electric heat • Hybrid Gas Furnace Module for Peaking. • Energy Star

Heating/Cooling - Water to Water, Water to Air,

Split Systems 1.5-5.3 tons

Founding brand in Geothermal • 35+ Years Experience • Simple Mechanical Controls • Corrosion-Resistant, Insulated Cabinet • Easily Staged with Conventional Boilers • Easily Adapted to Conventional Fan Coil Distribution • Available Options: Corrosion-Resistant Water Side Heat Exchanger • On-Demand 2nd Zone Water Heating to 130° F • Reverse Function of Heat Exchangers (Chilling/Heating) • Available Three-Phase Compressor, Larger Models. • Energy Star

FLOW CENTERS, PUMPS AND ENGINEERED PUMP SKIDS

RADIANT, HIGH VELOCITY AIR AND DOMESTIC HOT WATER

HYDRONIC ZONE AND TEMPERATURE CONTROLS

Zone Valve Switch Relay, In-Line Expansion Tanks, Smart Multi Energy Tank, Buffer Tanks, Zone Valve Terminal Block Sets, valves, Pex Piping, Radiant Floor Heating, European low temperature radiators, Controls, Sensors and Instrumentation.

PEAK DEMAND HEATING, SOLAR ASSIST AND ACCESSORIES

High Efficiency, Low NOx copper fin, condensing/near condensing or cast iron boilers. Solar Collectors, Storage Tanks, Solar Pump Stations and fitting packages, Solar Flex Stainless Steel Pipe and Kits, Pre-Mixed High Temperature Propylene Glycol and accessories. Electrostatic Air Cleaners, Humidifiers, HEPA Filters, Instantaneous Water Heaters.

PIPING, FITTINGS, AND FUSION

HDPE and Pex and fittings. Butt socket, Electro Fusion fitting tools and equipment.

The Blake Group distributes EVERYTHING you need for Geothermal. Please view our Geothermal OUTSIDE THE BUILDING line card for all your geothermal field needs.

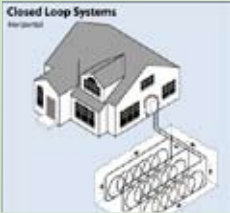

Blake Equipment | BWS | JW Stevens | Northeast Mechanical

Generous Economic Incentives for Geothermal Systems

Homeowners:

Federal Income Tax Credit

- 30% Tax Credit of installed cost

Qualifications:

- Home located in USA
- Includes primary residence, vacation home, multifamily, condominiums
- Products must meet Energy Star requirements.
- Installed between 1/1/08 and 12/31/2016

Businesses:

Federal Income Tax Credit

- 10% Tax Credit of installed cost

Accelerated Depreciation:

- 5 year MACR on entire system
- 50% 1st year bonus 2008-2009

Qualifications:

- Building located in USA
- Original use begins with taxpayer.
- Installed between 10/03/08 and 12/31/2016

No cap on the Tax Credit, Credits can be used to offset AMT(Alternative Minimum Tax) and be spread across multiple years. Credits may be combined with other Energy Tax Incentives. Additional State, Local and Utility Incentives may be available in your area. These may include possible rebates, grants, property tax relief, state and local income tax relief and low interest loans.
