ABOUT THE BLAKE GROUP

The Blake Group is a family owned and operated business. We proudly celebrated 90 years in business in 2017.

OUR PASSION: Where there's a need to heat, treat, move, control water and conserve resources - Blake solves it through Teamwork, Integrity, Innovation, Excellence and Kindness.

OUR VISION: To offer our customers innovative and "Green" water and thermal energy solutions...for a better world.

Since 1927, the Blake Group has evolved from a small traditional pump, boiler and hot water distributor into a well-known, regional specialty distributor and manufacturers' representative offering Peak Performance Solutions that allow sustained use of water and thermal energy resources.

We serve our partners who design, build, maintain and manage these systems, providing innovation through technology... For a better world.

Web Store

Place new orders and manage your account from anywhere, anytime, on most devices (including phones and tablets) through Blake's Web Store. Training and support is available through our ECommerce Department. Orders are processed from your local branch. For more information contact your local Blake Branch or visit www.BlakeEquip.com.

Technical Support and Training

Expect expert technical support and personalized service from Blake. Training for basic well systems, pump schools, valve repair, system design and WQA approved classes. Design support for application and sizing is available any time from your local rep and our inside sales staff. Free Water Analysis. Count on Blake.

Resins, Media, Chemicals

Our inventory of specialty resins, selective minerals, catalytic medias and water treatment chemicals is unmatched by anyone in the northeast. BWS offers custom blended mineral mixtures for the most demanding water problems. Most minerals and media are available packaged in pails for ease of handling.

In Stock Parts & Accessories, Service

Blake Water Solutions(BWS) inventories a vast array of parts and components for all major manufacturers of water conditioning equipment. Our central distribution center and network of 12 stocked distribution centers throughout the northeast assures timely response and delivery to meet all your critical support requirements. Blake uses their own fleet on delivery trucks and drivers.

Pumps, Tanks, Pipe and Fittings

Chemical feed, submersible, centrifugal boosters, repressurization and jet pumps are always in stock. If you need a pump now, we have it. Blake maintains a large inventory of media tanks from small under the counter tanks to large commercial tanks. Stainless steel upon request. Copper, Pex, Schedule 40 PVC, Schedule 80 PVC and HDPE. Fittings and accessories such as Shark-Bite, John Guest and Mr. Drain Air Gaps. If it's an accessory to complete a water conditioning installation, we have it.

Expert Technical Support

Fast Delivery

Certified Professional Staff

***Blake Equipment** is a leading wholesale distributor in the Northeast of equipment, supplies and parts for water treatment, water well and pumps with 13 convenient locations across the Northeast. Blake Equipment is a proud member of the Water Quality Association, assuring customers the highest quality products available. Field sales is supported through Shared Services, an inside team of experts utilizing the strengths of our key team leaders to assess, develop and deliver the right answer to the problem at hand. This approach of solving problems through applying shared knowledge and experiences of a team of seasoned industry experts provides contractors, engineers and their customers with real world solutions that work.*
