## WATER SOLUTIONS

**LINE CARD**

[www.blakeequip.com](http://www.blakeequip.com)

Blake Equipment is a leading wholesale distributor in the Northeast of equipment, supplies and parts for water treatment, well systems, sump and sewage solutions, septic systems, municipal pumps and other pumps with 13 convenient locations. We are committed to superior customer service. Blake Equipment is a proud member of the Water Quality Association, assuring customers the highest quality products available. Field sales is supported through an inside team of experts. Our shared services concept of in-depth problem solving utilizes the strengths of our key team leaders to assess, develop and deliver the right answer to the problem at hand. This approach of solving problems through applying shared knowledge and experiences of a team of seasoned industry experts provides contractors, engineers and their customers

**Technical Support and Training**

Expect Expert technical support and personalized service from Blake. Training for basic well systems, pump schools, valve repair, system design and WQA approved classes. Design support for application and sizing is available any time from your local rep and our inside sales staff. We provide free Water Analysis. Count on Blake.

**Resins, Media, Chemicals**

Our inventory of specialty resins, selective minerals, catalytic medias and water treatment chemicals is unmatched by anyone in the northeast. BWS offers custom blended mineral mixtures for the most demanding water problems. Most minerals and medias are available packaged in pails for ease of handling.

**Marketing Support**

Professional presentation materials for use with dealers' customers. Informative end user literature on Reverse Osmosis, Whole House Softeners, Whole House Filters and Water Quality Solutions with reserved space for dealer contact information. IPAD sales tool on Fleck 5600 softener, BWS WQA certified Profession Series of whole house softeners. Dealer is branded in the presentation. Call for more information.

**In Stock Parts & Accessories, Service**

Blake Water Solutions(BWS) inventories a vast array of parts and components for all major manufacturers of water conditioning equipment. Our central distribution center and network of 13 stocked distribution centers throughout the northeast assures timely response and delivery to meet all your critical support requirements.

**Pumps**

Chemical feed, submersible, centrifugal boosters, repressurization and jet pumps are always in stock. If you need a pump now, we have it.

**Pipe and Fittings**

Copper, Pex Schedule 40PVC, Schedule 80 PVC and HDPE. Fittings and accessories such as Shark-Bite, John Guest and Mr. Drain Air Gaps. If it's an accessory to complete a water conditioning installation, we have it.

**Tanks**

Huge stock of media tanks from small under the counter tanks to large commercial tanks. Stainless steel upon request. We stock a complete line of Rheem hot water heater tanks. We deliver.

**Expert Technical Support**

**Fast Delivery**

**Certified Professional Staff**

**ABOUT THE BLAKE GROUP**

OUR MISSION is to offer our customers peak performance water and thermal energy solutions, equipment and products.

OUR VISION is to offer our customers innovative and "Green" water and thermal energy solutions...for a better world.

*In over 85 years of operation, the Blake Group has evolved from a small traditional boiler and hot water distributor into a regionally well-known, specialty distributor and manufacturers' representative offering Peak Performance Solutions that allow sustained use of water and thermal energy resources.*

*We serve our partners who design, build, maintain and manage these systems, providing innovation through technology... For a better world.*
