Why Choose A Blake Water System?

Blake Water Solutions' entire product line is engineered to allow sustainable use of water and thermal energy resources.

Since our beginning in 1930 when Blake Wilson began selling water heaters and boilers out of his garage in Hartford, Connecticut, we have remained a family owned and operated company dedicated to providing solutions to the specific water quality issues common to the Northeast.

Because of our attention to detail and use of quality materials and components at our local manufacturing facilities, Blake Water Solutions' fully transferable 10-5-1 Warranty is one of the strongest guarantees in the industry! Our tanks are covered for 10 years, control valves are covered for 5 years and all other components are covered for a full year.

We are proud of the fact that each of our managers and sales personnel have attained either CWS or CSR certification through the Water Quality Association (WQA)—the leading non-profit trade association. Blake Water Solutions is one of the most well-respected names in the water quality industry.

BLAKE
WATER SOLUTIONS

From our home in northeastern US to your home and family, you can trust a water conditioning product assembled by Blake Water Solutions. Local, trusted and family owned for two generations, our products are built with pride in the USA.

What Can Blake Water Solutions Do For You?

Blake Water Solutions' entire product line is engineered to allow sustainable use of water and thermal energy resources.

1. Untreated water enters the home.
2. BWS Water Filtration System removes a variety of contaminants and raises the pH of the water.
3. BWS Water Softener eliminates calcium and manganese, protecting the rest of the pipes and fixtures from lime scale buildup.
4. R.O. unit purifies the drinking water headed to the kitchen sink and refrigerator ice maker.
5. Filtered and softened water not intended for drinking purposes flows to the rest of the house.

Kitchen

Clean, odorless drinking water; spotless dishes; better tasting food and beverages.

Bathroom

Eliminate staining on fixtures; extend the life of plumbing components; leave your hair feeling soft and manageable.

Laundry

Reduce detergent use; colors look more vibrant; towels feel softer.

Basement

Improve the efficiency of water heating systems; extend the life of pipes and other plumbing fixtures.

Your Local Water Quality Expert:

Blake Water Solutions' fully transferable **10-5-1 Warranty** is one of the strongest guarantees in the industry! Our tanks are covered for 10 years, control valves are covered for 5 years and all other components are covered for 1 year.
